

nightlight tonight,
oh pretty please?
starlight that hides,
under your wing

tomorrow we try,
be all we can be,
i think i would like,
your light beside me

light up the night for me,
where have i gone wrong?
why can i not see?

light up the world for me,
oh Nightlight Kid,
keep the night bright please

nightlight tonight,
and all that you bring,
i know that i hide,
from what you don't see

daylight's a fight,
when you're just a dream,
i know that you try,
and keep the darkness from me

light up the sky,
why does it take so long?
for you and i

light up the world for me,
why does it take so long?
just to fall asleep

light up so bright for me,
oh Nightlight Kid,
keep the night bright please

light up inside for me,
oh Nightlight Kid...

keep the dark from me.
